**Innovative, low noise, high-quality - QT Air Direct Drive Compressors are engineered with components to reduce the sound generated when in operation, without compromising on air production efficiency.**

Essential for use in environments where sound output is a concern, these low maintenance, oil-free compressors operate at just 59dB.

- Featuring slow-running, 4-pole brushless induction motors and braided hoses for added durability
- Fan-cooled, twin cylinder motor and pump for efficient air production
- Carry handle and wheel-mounted options for outstanding movability in the work area and between locations
- Anti-vibration mounts support low noise operation
- Pressure switch and air regulator
- Delivers up to 10bar max. pressure

**LOW-NOISE PUMPS**
