

## SUCKS WATER FROM BARRELS, TANKS & CONTAINERS... NO MAINS WATER SUPPLY NEEDED!

Robust in their design and versatile in their application, SIP's range of petrol powered cold water pressure washers support thorough cleaning, including locations where a mains water feed isn't accessible.

Built to deliver consistent high pressure, 2mtr suction head will suck water from alternative sources such as barrels, tanks and containers. The range includes solutions that are ideal for home and professional applications:

### HOME USE

- Patios
- Driveways
- Decking
- Windows
- Conservatories
- Small vehicles

### PROFESSIONAL USE

- Storage tanks & containers
- Gates, fences, railings
- Machine parts & components
- Hard outdoor surfaces
- Commercial vehicles

### ADVANCED PROFESSIONAL USE

- Valeting
- Agriculture
- Engineering workshops
- Machine parts & components
- Hard outdoor surfaces
- Haulage vehicles
